November 10, 2014

Dear, Jon

The Killing Kompany,

I can't say enough about your recent performance for us at Clobeh restaurant in Great Neck. You and your group of highly trained professional actors made our evening the most talked about event in recent history. Everyone was so engaged with your performance and had the time of their life. I have never seen so many Shul members enjoying an evening as much as that before.

As an Orthodox Shul I had some concerns over the material that would be used in the show but everything was done with so much class and decorum. You and your group were the most consummate professionals. The evening flowed so well, the timing of the show and the diner was absolutely perfect.

Please so not hesitate to call for any reference as I will be happy to accommodate you.

Sincerely yours,

Mark Friedman

VP Men's Club
