Jon,

I haven't had a chance to thank you for the terrific show you did for our group back in June. You are so believable, but even more so, I was so impressed with your advance knowledge of our community and our politics. Killing our congresswoman might not have been a good thing, we like Nita Lowey, but your twist on why, was good!

Having a Murder Mystery was lots of fun. The participants enjoyed being involved in the entertainment, rather than just watching. Even our "loud mouths" had a good laugh.

Thanks again,

Bonnie Wind
